

DANIELSON AND PUTNAM NEWS

DANIELSON

Two forest fires that broke out Wednesday afternoon threatened to do much damage in the town of Killingly before they could be brought under control and extinguished. At the farm of Willis H. Shipp, in the Killingly district, the destruction of the farm buildings, particularly the barn, was threatened. A house, situated by a neighbor of Mr. Shipp's got beyond control, it is believed, on account of the strong wind that was prevailing and before the rush of the flames could be checked they had taken their way close to the Shipp's house, the burning of which must have resulted in a loss of practically all the buildings on the place.

Telephone calls summoned help from all the neighboring territory and by valiant work the men and women who assembled succeeded in saving the buildings, but would not check the fire until it had burned over a valuable woodlot belonging to Mr. Shipp. It was late in the afternoon before the fire could safely be said to be out.

The other fire was south of the borough and burned over territory near the old Shipp's farm on the Green Hollow road between that point and the railroad. Many men were summoned to battle with this fire, which was threatening to range over a wide area in that section of the town.

Captain F. G. Armstrong, of the newly organized county company, said Wednesday afternoon that he has heard nothing.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they clear clouded brain and perk up the spirits. 15c and 30c a box.

DANIELSON CASINO, STARKWEATHER BLDG. BOWLING AND POCKET BILLIARDS FOUR ALLEYS THREE TABLES WEDNESDAY LADIES' DAY. Bowling is the sport for all. Prizes given away every Saturday.

FOR YOUTH — FOR BEAUTY — FOR CHARM

THE WOMAN WHO HAS FOUND THE SECRET OF YOUTH HAS FOUND THE SECRET OF BEAUTY YOUR FIGURE TELLS YOUR AGE.

Various things contribute to the appearance of age, but nothing accentuates it half so much as a badly corseted figure. This simple statement of this truth needs no emphasis; the figure tells a story that is apparent to all.

Your corset then should become your first consideration.

If you desire a corset that will fit you perfectly — give you utmost freedom—unhampered grace and correct style, we urge you to have a trial fitting of the MODART Corset. A trial fitting is far more convincing than the highest possible recommendation, for in no other way can you truly appreciate its style and comfort.

MODART CORSETS

Woodman, A. J. Hall.

The latest reports from the state headquarters of the committee at New Haven are that Connecticut has contributed \$247,000 and that the fund is certain to reach the \$500,000 mark, \$100,000 in excess of the state's quota.

Quantities of railroad ties are being drawn to the railroad yards here from the surrounding country. As a further aid to improving the facilities for the traveling public here, the N. Y. N. H. and H. R. R. company has dispensed with the services of a baggage master and the work is now done as best possible by other employees at the station. Danielson may yet be signaled out by the New Haven for the honor of being the first self-service railroad station in the world, with opportunity for a prospective traveler to drop a coin in a slot machine, which may replace the station, load his own baggage and give the necessary button touch to send the train on its way. The world to move, however slowly, and all things may be possible for him who lives through times like these.

Horser trading and selling seems to be coming back into its own here in Danielson, which has been a regular bee hive of activity for horsemen the past few weeks. There are suggestions of years gone by in the scene as men who are "showing up" their horses and one hears a lot of horse talk that has a strange, yet familiar sound.

Between this place and Providence there is a steady increase for the past few weeks having gradually grown better with returning activity in the big textile plants.

All work ceased at noon Wednesday at the plants of the Connecticut Mills.

here in respect to the memory of Tracy S. Lewis, president and treasurer of the company, who died in Brooklyn, New York, Sunday, and whose funeral was held at Beacon Falls, Wednesday afternoon. Vice President Obadiah Butler, Superintendent Amos Morn and Thomas Jessup, of the executive intonation of the local mill, were at Beacon Falls for the funeral. Beautiful floral tributes were sent to Beacon Falls in the name of the office force and overseers of the mill here.

A big event is just ahead for the members of the Danielson fire department—the annual pay day. This year the men will receive somewhat more than has been the rule for many years past, an increase in wages having been granted since the last pay day, about a year ago.

The fact that there has not been a greater number of arrests for intoxication in this city recently came in for comment by Alderman John G. Johnson at the April meeting of the common council. The total number of arrests in Putnam for all causes during March was only six and but three of those arrested came to court for having been intoxicated. Alderman Johnson commented upon witnessing a Sunday morning brawl in the center of the city and other incidents taken to indicate that there is too much drunkenness for prohibition times.

Captain J. H. Bulger, who was present at the meeting of the council, said a few words relative to the situation. Admittedly, the police have been lenient with those who have become intoxicated and have appeared in the streets, but Captain Bulger will issue orders to his men to be more strict in dealing with persons who become intoxicated and parade about the streets.

The police report for March shows that there were six arrests—one for breach of the peace, three for intoxication, one for non-support and one on the charge of operating a motor vehicle while under the influence of intoxicating liquor or drugs. One of those arrested was sent to jail, one was found not guilty, two were discharged and two paid fines and costs. Thirty tramps were lodged during the month, an evidence of the unemployment that has been so prevalent throughout New England and the return of the knights of the road, of whom little or nothing was heard during the war boom years. Property to the value of \$40 was reported as stolen during the month and \$25 worth of property was recovered.

High building costs will indefinitely delay the construction of the brick business block that was to have been erected on Elm street this spring by Wolf & Kaminsky. The lowest bid that has been obtained for the structure is \$49,000, and on this basis it is evident that the building for the men interested to get any where near an adequate return on their investment. It was intended that the building be completed by June but this idea has been entirely abandoned and more favorable prices on material and other costs will be awaited.

By vote of the common council, Mayor A. W. Mather is instructed to withdraw from the legislature two resolutions providing for amendments to the charter of the city of Putnam. It has been ascertained that the legislature will not introduce any amendments to the charter that they are decidedly unpopular with many residents of the city and that necessary steps had been taken to oppose their introduction. The amendments contained provisions that would have given practically life tenure of office to the chief engineer and assistant engineer of the fire department and to the superintendent of the fire alarm telegraph and also to the captain of police. Chief opposition to the measures was due to the fact that the legislature has been so much opposed here at home that it was decided to defer the hearing in anticipation of the council's vote and to give them time to draw which will now be done.

A special measure appropriating \$20,000 for the Day Kimball hospital of this city was rejected by the legislature along with a group of like measures providing appropriations for hospitals in various sections of the state. This does not mean that the appropriation is lost to the local institution, but that the money will be provided in the general budget that is being prepared.

Miss Minnie A. Gannon, head of the commercial department of Putnam High school, Postmaster and Mrs. Alexander Gilman and Miss Sybella Gilman and Miss Pauline Lucier have been at Boston to attend the business show and the New England typewriter contests for schools. Miss Gilman participated in the typewriting contest.

Forest fires raged over territory in various sections of eastern Windham county during Wednesday, and many men were engaged in subduing them. Much spruce was burned off, but up to early evening no reports had come in of serious losses as the result of the fires. The exceedingly hot weather for this time of year and the fact that there has been no rain for nearly a week has increased the danger of forest fires, against which everyone is asked to take every precaution.

Attorney Ernest C. Morse has caught some of the fine trout of the season, his first fish of the season weighing one pound. John Maynard has entered the employ of the Motor Supply company of this city. Big motor trucks bringing in beams of yarn for the Manhasset Manufacturing company are a pleasing evidence of a return of activity at this important plant.

A score of men who formerly held liquor licenses here are interested in the legislature's consideration of the proposal that money from unexpired licenses be returned to them. Prohibition became a law two years ago, since which time men while the license had about four months to run.

The annual meeting of the Putnam Coal ship will be held on Wednesday week and officers re-elected for the ensuing year. Warnings are being issued that persons found driving automobiles without having operators' licenses will be summarily dealt with. It is known that a considerable number of persons in and about this city make a practice of driving motor cars without having a license to do so.

Putnam's baseball team is making ready for the season's playing. As is always the rule, practically all of the games will be at home. It is said that the school has material for an excellent team this year.

The work of filling state highways in Windham county is under way. Oil was being applied to a highway at North Windham on Wednesday and a tractor from this city was engaged in aiding at the work.

The canvass in the interest of the Rotary society of St. John's church of the Rotary society of St. John's church was a big success. During the evening several North Windham entertainers were heard. Nicholas Swenson, Horace Corning and Henry LaFontaine, accompanied by Miss Sullivan, sang several popular songs. Mrs. Morgan Cronin, accompanied by Miss Wood, rendered several very fine selections. Miss Evelyn Campbell and Miss Bernadette Johoeur danced an old-fashioned jig. Close to 250 couples enjoyed the remainder of the evening dancing to music by the Fidelity orchestra. The committee in charge was Mrs. Thomas Fox, president; Mrs. John Nolan, secretary; refreshments, Mrs. Wilfred Provost, Mrs. Cantwell, Mrs. Dan Connors, Mrs. Eastham, Jenny McStay; tickets, Mrs. Lillian Coffey, Mrs. Tom Flynn, Mrs. Reano; checking, Mrs. Margaret Sullivan, Mrs. Frank Evans, Mrs. Ed Taber, Mrs. Edmund Drivignon, Jack Leahy and Gus Coffey acted as aides. Rev. Richard P. Morrissy was well pleased with the results. The proceeds will be used for church repairs.

The former residence of Robert West is being moved from its site opposite the Lawton inn to a location facing a new road, just built running from Plainfield street to the mill.

H. S. Holkamp of New York was a visitor in town Tuesday.

The sixth regular meeting of Plainfield grange, No. 140, was held Tuesday evening. Worthing Master Edward Hall in the chair. After the business meeting the worthy lecturer, George H. Dawley, turned the lecture hour over to the home economics committee. Edith M. Kennedy

BORN. SEABERG—In Montville, twins, Hattie Elizabeth and Louis James, to Mr. and Mrs. Louis Seaberg. SHORTMAN—In Westerly, R. I., April 2, 1921, a son to Mr. and Mrs. Fred Shortman.
